Match 3: Practical (20 rounds)

| | |
|---------------------|---|
| Targets and Scoring | 2 x mini rifle targets. Total match score 100 |
| Practice 1 | 25 yds, Start standing, rifle loaded (bolt forward on empty chamber) but NOT made ready. On edging of target adopt kneeling position, make ready and take aim. On target exposure, 5 shots in 6 seconds on LH target |
| Practice 2 | 25yds, weak shoulder, standing. 5 shots on RH target in 8 seconds from the weak shoulder. Ready position is rifle in shoulder at 45degrees pointing down range. |
| Practice 3 | 50 yds 'freestyle'. 10 shots in 16 seconds, 5 shots on LH and 5 shots on RH target. The targets may be engaged from standing, kneeling or prone. The shooter must indicate as to which position they will adopt before the start of the practice and will be squadded accordingly. Start position for standing or kneeling is standing loaded but NOT made ready and rifle held at waist height pointing down range. On the exposure of the target, standing shooter makes ready and engages targets; kneeling shooter adopts kneeling position, makes ready and engages target. Prone shooter starts standing with rifle unloaded and placed on firing point with loaded magazine or ammunition adjacent and demonstrably separate to the rifle. On target exposure, the competitor drops to prone, loads, makes ready and engages target. Note, special squadding conditions will apply for this practice only. |

Notes:

1. A different rifle may be used for each match but the same rifle must be used for all practices within a match
2. Slings are allowed in Match 1 only. No other artificial support is allowed.
3. Any sights may be used but lasers are not allowed.
4. All members are welcome to take part. Probationary members may shoot under supervision. Special provision for disabled (disability shooters) will be made (this does not apply to those who merely find it uncomfortable to kneel or go prone).
5. Scoring : Inward scoring. A shot hole, the lead edge of which comes in contact with the outside of the bullseye or scoring rings of a target is given the higher value. A scoring overlay gauge will be used to determine the value of close shots. The higher value will be allowed in those cases where the flange on the gauge touches the scoring ring.
6. In case of keyhole or tipped shots the higher value is awarded if the lead edge of the bullet hole touches the scoring ring of higher value even though the hole is elongated to the bullet's length rather than being a circle of the bullet's diameter.
7. Shots fired while the target is in motion will be scored as hits provided the greatest horizontal dimension of the bullet hole measures no more than one and one-half (1½) times the diameter of the bullet.
8. Visible hits and close groups. As a general rule only those hits which are visible will be scored. An exception will be made in the case where the groupings of **3 or more shots** are so close that it is possible for a shot or shots to have gone through the enlarged hole without leaving a mark and there has been no evidence that a shot or shots have gone elsewhere than through the assigned target. In such a case, the shooter will be given the benefit of the doubt and scored hits for the non-visible shots, on the assumption they passed through the enlarged hole. If such assumption should place a non-visible hit in either of 2 scoring rings, it shall be scored in the higher-valued ring.
9. Sign in 10:00am, Competitors Briefing 10:20am.
10. Cost £5-00
